

# FOREWORD

Makoto Saegusa  
Managing Director  
General Superintendent, Hanshin Works  
General Superintendent, Chita Works

Kawasaki Steel had completed the construction of the main facilities of its pipe-making mill.

by 1970, and subsequently upgraded its heat treatment facilities.

lished in 1988. The current issue presents an outline of pipemaking production technology and

technology, new products, new equipment, and automatic instruments. We trust you will read it

with interest and find the contents useful.
