

**Thin Organic Composite Coated Steel Sheet with High  
Corrosion Resistance for Automobile Body Panel**

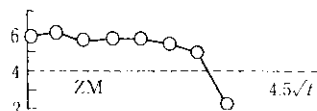

### 3 Corrosion Resistance

Figure 2 shows the unpainted corrosion resistance of

4.

EZN with organic composite film coatings at the initial stage of electropainting. The electric resistance of the hydrophilic resin composite-coated EZN is three times that of the uncoated EZN. DIASCOAT KM with hydrophilic resin composite film coatings at the initial stage of electropainting. The electric resistance of the hydrophilic resin composite-coated EZN is three times that of the uncoated EZN.
